

# Exercise: Phone Booth (10 Years From Now)

## You receive a call ten years from now...

Imagine . . . Ten years from now, your Mentee gives you a call like the one you watched people make in the “Who's In Your Success Village?” video. What do you hope your Mentee would say to you?

Without giving it too much thought, write down any words or phrases that come to mind as you imagine the kind of call you would like to receive someday in the future.
